-  **English (C1), German(B2), Russian (C1), Azerbaijani(B2).**

Experience

- April 2022 - **Software Developer**, *Dedalus HealthCare GmbH*, Bonn, Germany.
 - Currently
 - Designed and built an online front-desk and waiting-room management system using Spring Boot and Angular 18, integrated with Grafana dashboards for real-time operational monitoring
 - Architected and delivered a high-throughput REST API on Quarkus integrated with the Camunda BPM Engine, enabling workflow orchestration for clinical processes
 - Led adoption of containerized deployments via Docker across all owned services, streamlining release cycles and reducing environment inconsistencies
- September 2020 - March 2022 **Software Developer**, *Universitätsklinikum*, Bonn, Germany.
 - Built a FHIR bundle visualization and search solution using Angular, enabling clinical researchers to navigate complex HL7/FHIR medical datasets more efficiently
 - Developed ETL modules to transform heterogeneous medical data into standardized FHIR entities, improving interoperability across several hospital information systems
 - Delivered a Spring Boot + Angular patient portal with role-based access control
 - Maintained unit test coverage using JUnit and Mockito across backend services
- April 2019 - **Software Developer**, *CodeFrog*, Braunschweig, Germany.
- August 2020
 - Built a cross-platform financial trading mobile app using React Native with a Spring Boot backend, handling live stock data
 - Engineered a vehicle delivery management platform with Angular/Spring Boot; introduced Bamboo-based CI/CD pipeline
 - Implemented Redux state management and RxJS reactive patterns for complex UI data flows
- June 2017 - **Software Developer**, *Peter L. Reichertz Institut for Medical Informatics*, Braunschweig, Germany.
- March 2019
 - Developed a rule-based Pay-for-Performance reward system using Play Framework, supporting clinical trial incentive structures
 - Extended a Java backend for a clinical trial management system (CTMS), adding new modules that reduced manual data entry
 - Administered deployment servers, databases, and CI/CD pipelines
- Aug 2016 - **Web-Developer**, *Advanced Dynamics*, Cologne, Germany.
- June 2017
 - Developed an internal time management calendar in Angular
 - Built web scraping tools in PHP/Python that automated data aggregation from external sources
- May 2016 - **Backend Developer (internship)**, *Brav Conflict Resolution*, Michigan City, Indiana.
- 2016–Oct 2016
 - Implemented real-time peer-to-peer communication features using WebRTC, enabling live video/audio sessions between users

Projects

- DiscoverDE  ○ React Native German language learning app with listening/reading modes, multilingual support, and interactive quizzes
- Java-1Z0-808  ○ React Native exam preparation app with chapter-based quizzes, question bookmarking, and progress statistics
- Bulls&Cows  ○ React Native code-breaking game with two modes (vs AI & number-finding challenge), statistics tracking for wins/losses, and an achievement badge system earned by solving within a predefined number of steps
- Graiger Scrapper ○ Django-based Telegram bot scraping automotive data via long polling; integrated with Django ORM

Skills

- Languages Java 8/11/17/18, TypeScript, JavaScript (ES6+), CoffeeScript
- Frameworks Spring Boot, Spring Security, Spring Data JPA, Spring AOP, Quarkus, Hibernate, Angular 18, React Native, Django, Play Framework, Express.js, GWT
- Architecture Microservices, RESTful API Design, GraphQL, Event-Driven Architecture, Domain-Driven Design
- Cloud (AWS) EC2, VPC, S3, IAM, RDS, DynamoDB
- DevOps Docker, Jenkins, GitLab CI/CD, Bitbucket Pipelines, CircleCI, Bamboo, SonarQube
- Databases PostgreSQL, MySQL, MongoDB, DB2, Firebase, SQL
- Testing JUnit 5, Mockito, Jest, TDD, Integration Testing
- Frontend React, Angular, Ajax, jQuery, Bootstrap, SCSS/SASS

Education

- 2014–2018 **Master of Computer Science**, *University of Bonn*, Germany.
- 2010–2014 **Bachelor of Computer Science**, *Azerbaijan State Oil Academy*, Azerbaijan.

Publications

- Sep 2019 *Pay for Performance in Electronic Data Capture for Clinical Trials and Medical Registries*, ICT for Health Science Research, EFMI 2019, IOS Press Ebooks

Certifications

- July 2023 Java SE 8 Programmer, *Oracle Certified Associate*
